

Dog Owners Unite to Publicly Outsmart Their friends.

Do you think you know everything about your pet? *You probably do!* Woof Warrior says you shouldn't stop there, and we just released our app for friends to play Pet Detect Quiz. Pet Detect has just been sent to the Apple Developer for review, and supposed to be released very soon.

Here is your first chance to go head-to-head with the pet owners you know, to see who knows more about their dog. Did you know the name of all companion dogs? :)

To play the game, it goes like this.

1. You will see there are 6 type of dogs represented by little animations.

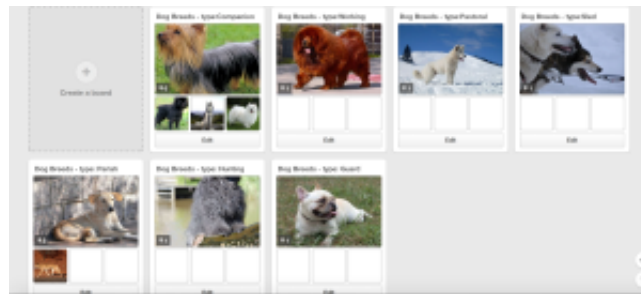

1. Pastoral
2. Pariah
3. Guard
4. Hunting
5. Companion
6. Working
7. Sled

2. Dog will be purebreeds, and some are from local pet owners
3. Full grown dogs will be available only.
4. Guess the dog breed
5. Check you score by going to the Game Center

Check it out on the app store, and ask your friends to play along with you. Let us know who wins ;)

What we hope is you keep sending in over-the-top adorable photos of your puppy, and we can get a puppy bonus round going!!!

We absolutely are thrilled to get a turn out of such adorable photos, and we even posted it on the website. To celebrate the launch of the app, we are holding a Halloween inspired photo contest of the contestants, starting October 1st. To enter, just upload your photo on the Woof Warrior website, and then we will vote for the best dog by November 1st.

Check out all the dogs at <https://www.pinterest.com/woofwarrior/>
